Subject: CFAC Phase one review

Good morning Mike,

For CDM Smith to provide a thorough review of the Phase I summary report, we are requesting permission to start reviewing the raw data collected. In order to start this task, we need Glencore/Roux to provide the following items.

- All analytical data

- EDDs

- Database files

- Any historical data tables in Excel format
- Laboratory documentation for sample prep
- Geologic logs – prepared (e.g., gINT or similar) or field logs if prepared logs are not available
- Well construction logs – see above
- Sampling logs/field sheets
- Total sample count (i.e., 20 sediment, 50 soil, etc.)

Thank you,

Damon L. Repine, CSP
